

**Seven Flowers** is an anti-hypertensive Chinese herbal formula that may nutritionally help lower blood pressure, lipid and cholesterol levels. It may also have a calming effect on the body without the usual side effects. Many people have found great relief with Seven Flowers - they sleep better, live calmer and relate to stress better. This rare, all natural flower extract formula triggers mechanisms which mobilize the body's own biochemical makeup. It contains a proprietary blend of Black Moss, Chrysanthemum, Honeysuckle, Radix Notoginseng, Sophora Japonica, Prunella Vulgaris and Cleistocalyx Operculatus.

*100 tablet bottle*

**Suggested Usage:** Adults take 3-4 tablets two or three times daily.
