

WHAT PEOPLE ARE SAYING
ABOUT XCELEDRENE™

I am 71 years old and used to use Momentum and Formula 1 for energy and weight loss both were ephedra products. I just started on Xceledrene 1 month ago and have lost 11 pounds and have tons of energy. I have lost inches to the point I can not wear my pants, I have to wear skirts again. It has been shrinking my cellulite, something the ephedra products never did. I only take 1 in the morning and it has curbed my appetite where I don't snack anymore. Everyone around me has commented how good I look and as a result want Xceledrene and they are experiencing similar results. I now have the drive to keep up with all activities and I feel so good! This product is better than any product I have ever taken!! -- Patricia Fitchjarrell, Douglasville, Georgia

I would like to thank you for introducing me to Entrenet's new energy product, Xceledrene. I personally enjoy one capsule mid morning and one mid afternoon. I have been handing out samples and have been getting requests like crazy. It helps me keep focus throughout the day without the jitters of other energy products. We will introduce this to all of our patients who are trying to lose weight or simply want to become more productive. We are doing a health seminar at the end of the month introducing the vanilla and chocolate whey protein. I will add the Xceledrene samples to the patient gift bags. I look forward to seeing you at the next live blood cell day. -- Dr. Dan, White Oak, PA

I just wanted to touch base with you concerning your new happy pill. As you noticed, I was not in a very good mood today. Several things going on with my family, but time will take care of itself. I took one capsule of the Xceledrene after lunch, what a difference. It simply lifted my spirits; it actually gave me a light buzz. Dr. Sam is

putting the Xceledrene in this month's newsletter. I can also say I didn't pick away at junk food all afternoon. I know you work with many chiropractors, let their staff know this product will get them through some of those rough days. Thanks a million. -- Debbie C., Latrobe, PA

I need more Xceledrene now!! I took one sample this Saturday and cleaned the whole house, then went out and did yard work. My husband asked me what the hell got into me. I told him I am a new woman and he better keep up or else. Thank you so much. I look forward to spreading this around the salon. See ya soon. -- Carol M., White Oak, PA

This was sent to us from one of our distributors in Illinois. She gave a sample to her husband's therapist.

Mary,

I wanted to let you know that the energy pills that you gave me a sample of are fabulous. They gave me so much energy over the weekend. I am definitely interested in getting my hands on a bottle or 2 :) Would you mind giving me the information next time you guys come into therapy?

ENTRENET NUTRITIONALS, INC.

Xceledrene

- ◇ **Weight Loss**
- ◇ **Appetite Suppressant**
- ◇ **Energy**

Xceledrene™

Entrenet Nutritionals Inc. has spent years searching for a dynamic replacement for our renowned energy and weight loss product, Momentum. Finally the replacement is here and we are pleased to introduce Xceledrene™ for:

- ◆ Weight Loss
- ◆ Energy
- ◆ Appetite Suppressant

Xceledrene™ will meet all your requirements, including a sense of well being.

Thermo Rx™ Technology

is a blend of four plant extracts that are standardized and processed uniquely to achieve a thermogenic response unlike anything else in the market including ephedrine. The two primary compounds are **acacia rigidula** (a stimulant made from an evergreen primarily from Mexico with over 54 species in the family) and 2 – **phenylethylamine HCL** (found in chocolate that has a positive effect on mood, appetite and a sense of well being and is considered the cleanest stimulant ever researched and the reason stimulating the CNS without nervousness or jitters), both stimulants by nature, but their thermogenic properties are unparalleled by any known ther-

mogenic agent. The two secondary ingredients are a special **green tea extract** and unique **theobroma cocoa** extract yielding specific bioavailable amines but are of a proprietary nature.

Extend Rx™ Technology

is a proprietary delivery system (an amplifier per se) designed to allow for maximum bioavailability of nutritional products. Bioavailability is the percentage of the active substance consumed that actually enters the bloodstream. This technology increases absorption on a cellular level, it is not what is consumed that is important but what is absorbed and usable. This technology keeps some of the key ingredients from being destroyed in the assimilation process making use of components that otherwise are being rendered useless in other formulations not using this advanced technology. This is also referred to as a "safe transport" system. A competitor could try to reproduce the ingredients and copy the formulation but would fail due to the destructive nature of digestion with key ingredients, hence the need for Extend Rx™; it can extend a product's bioavailability by many times.

Theobromine

Research shows its Extraordinary effects on fat loss, Appetite Suppression and Mobilization of fatty deposits.

Phenylethylamine HCL

is a neuromodulator in the brain involved in mood and mental alertness. It naturally occurs in some amounts in chocolate, certain algae's and is produced in the brain. Has been known to elevate the metabolic rate and promote a sense of satiety.

Acacia Rigidula Extract

A Patent pending extract used to promote weight loss and fat loss. It is also used to suppress the appetite and stimulate thermogenesis.

Cassia Nomame Extract (plant)

It helps to inhibit the absorption of lipids.

Citrus Aurantium

Has been known to elevate the metabolism, suppress the appetite, burn fat, & increase energy levels.

Green Tea Extract

Increased metabolism and may aid in weight loss.

Hoodia Extract

This is the only HPLC standardized Hoodia product on the market. This Hoodia is the world's strongest appetite suppressant

Serving Size: 1 caplet
Servings per container: 60

Dosage: Take 1-2 caplets in morning and 1 caplet after lunch. Do not exceed 4 caplets daily.
